3) Farmers Club Program :-

While dedicating NABARD to the nation, on 5th November 1982, the Hon'ble Prime Minister of India launched "Vikas Volunteer Vahini (VVV)" programme to propagate the five principles of "Development through Credit". The VVV programme was revisited and renamed as Farmers' Club Programme (FCP) in 2005. Farmers' Club is a grassroot level informal forum. Such Clubs are organised by rural branches of banks, NGOs and KVKs etc. with support and financial assistance from NABARD for mutual benefit of banks and the farmers.

The objective of the programme is "Development through credit, technology transfer, awareness and capacity building". The emphasis of the programme is on increasing the income of the farmers by increasing the production & productivity by adopting appropriate technology, good agricultural practices, proper use of credit and marketing skills.

Expert Meet Program

Free Animal Check-up

NABARD financially assisted our organization to enhance the capacity of farmers in Udham Singh Nagar. ISD organises expert meets with farmers and deliver knowledge about soil testing, crop management, requirement of insecticide/pesticides, micronutrients and how to transfer the latest technology in their farming and get more income in less investment. We also tried to build-up the capacity of farmers regarding leadership, management, coordination skills etc. Free animal health check up camps organised in the villages. Base level orientation programme and expert meet organised in the following 33 villages twice yearly at the time of Rabi and Kharif season. Geographical area is given below-

4) Produce Fund Project:-

NABARD has taken an initiative for supporting producer organizations, adopting a flexible approach to meet the needs of producers. In order to give a special focus, the "Producers Organization Development Fund"(PODF) has been set up wef 01 April 2011, with an initial corpus of ₹50 crore . Any registered Producers Organization viz, Producers Company(as defined under Sec 581 A in part IXA of Company's Act 1956), Producers Cooperatives, registered Farmer Federations, MACS (Mutually aided cooperative society), industrial cooperative societies, other registered federations, PACS, etc. set up by producers are eligible under the fund. Support under PODF is provided as under:

Credit Support is provided for financial intervention. Support in the form of grant, loans, or a combination of these is also available for capacity building & market interventions.

Since most of the Producers Organisations are having low capital base, scope for NABARD's intervention under PODF has been enhanced to support Producers Organisations for contribution to share capital.

5) Financial Literacy

The need for financial literacy and its importance for financial inclusion have been widely recognised. Based on various research studies on financial literacy initiatives, this column outlines financial services' needs of a poor household at various stages of its life cycle. It contends that customising financial literacy programmes according to the stage of life of targeted individuals is crucial for their effectiveness.

The need for financial literacy and its importance for financial inclusion have been acknowledged by all possible stakeholders - policymakers, bankers, practitioners, researchers and academics – across the globe. Various financial literacy programmes have thus been implemented by concerned institutions, with a lot of them being unique in their approach and delivery mechanisms. For instance, programmes have been customised to suit the requirements of students, microfinance clients, slum dwellers, bank clients etc. Some programmes have a particular focus such as a specific financial product, developing saving habit among target group, customer protection, business management, and so on, while others are more general and deal with money management skills, advocating healthy financial practices etc. Varied techniques such as videos, stories, activities, comic books etc. are used, along with traditional methods of classroom training. Banks like Punjab National Bank and State Bank of India have also begun setting up 'financial literacy and credit counselling centres' that people can go to for gathering requisite information.

While a lot of experimentation has been done in the realm of financial literacy, it is difficult to point to one standardised method or approach that works best in all scenarios with all kinds of target populations. Although this could be attributed to the lack of a standard definition or measurement tool, it is also a result of India's diversity in terms of language, caste, culture etc. Hence, it is challenging to design a product that 'fits all' sections of the population equally well.

Financial services' needs at different stages of a poor household's life cycle

Going back to the drawing board, it is important to work with the premise that financial services' needs of an individual vary primarily by age. While these also depend on financial status, social status and other factors, let us keep that constant and consider the life cycle of a poor household (primary target beneficiaries of financial literacy programmes). Children initially stay with parents and go to school. Following studies, they may move out of the parents' house and begin to live on their own (or with friends/ housemates) and earn their own living. They then get married, form a couple and start their own family. By this stage, the parents are old, with reduced income levels because of lower physical capacity to work. They seek support from their children who have just been endowed with new responsibilities of a family, with children of their own to raise. The cycle continues with these children getting educated, moving out to find a job and then eventually raising their own families, while assisting their parents.

NABARD has awarded ISD a Financial inclusion and Financial Literacy Programme in Udham Singh Nagar district of Uttarakhand focused on rural adults. The entire package has been designed to leverage on the existing infrastructure created and/or supported by Government of India and respective State Governments. This awareness programme is being implemented through Self Help Groups and Farmer Clubs.

- Awareness about money Management
- Money
- Cash flow
- Basic economic/ financial concepts
- Thrift and savings
- Attitude building towards financial security
- Healthy investment and retirement funds
- Free from indebtedness

ISD conducted survey, meetings with villagers, ASHA, AWW and school teachers in Lamakheda village of Sitarganj, U.S.Nagar. Financial literacy through wall writing and pamphlets distribution successfully changed the knowledge, skills and financial behaviour.

6) Micro Insurance.

Insurance Regulatory and Development Authority (IRDA) has created a special category of insurance policies called micro-insurance policies to promote insurance coverage among economically vulnerable sections of society. The IRDA Micro-insurance Regulations, 2005 defines and enables micro-insurance.

A micro-insurance policy is:

- A general or life insurance policy with a sum assured of Rs 50,000 or less

A general micro-insurance product is any:

- Health insurance contract
- Any contract covering belongings such as
- Hut
- Livestock
- Tools or instruments or
- Any personal accident contract
- They can be on an individual or group basis

A life micro-insurance product is:

- A term insurance contract with or without return of premium
- Any endowment insurance contract or
- A health insurance contract
- They can be with or without an accident benefit rider and
- Either on an individual or group basis

There is flexibility in the regulations for insurers to offer composite covers or package products that include life and general insurance covers together.

ISD provided more than 1200 micro insurance policies with the help of LIC.

7) SHG Formation and empowerment :-

Self-help groups, also known as mutual help, mutual aid, or support groups, are groups of people who provide mutual support for each other. In a self-help group, the members share a common problem, often a common disease or addiction. Their mutual goal is to help each other to deal with, if possible to heal or to recover from, this problem.

ISD implementing Self Help Group formation and empowerment programme by the financial assistance of NABARD, Udham Singh Nagar for empowerment of community. ISD organizes meetings, capacity building activities, uses BCC techniques and create linkages between bankers, district authority and community. ISD supported in the evolution of self help group, record maintenance, organizing monthly meeting etc. After group meeting 62 SHGs formed and they open their SHG bank account in the nearest bank in Kichha and Sitarganj, details are as follows-

8) National Digital Literacy Mission (NDLM)

Overview of NDLM

Making one person in every family digitally literate is one of the integral components of the Prime Minister's vision of "Digital India".

The Digital Saksharta Abhiyan (DISHA) or National Digital Literacy Mission (NDLM) Scheme has been formulated to impart IT training to 52.5 lakh persons, including Anganwadi and ASHA workers and authorised ration dealers in all the States/UTs across the country so that the non-IT literate citizens are trained to become IT literate so as to enable them to actively and effectively participate in the democratic and developmental process and also enhance their livelihood.

Altogether 52.5 lakh persons, including Anganwadi and ASHA workers and authorised ration dealers will be trained under the programme in two phases. In the first phase, 10 lakh beneficiaries will be trained under the scheme. Nine lakh beneficiaries will be eligible for training fee support from the government. The rest 100,000 beneficiaries will be trained by the industry and civil society partners.
